“ You do not know me but I read your daughter’s obituary this morning. My heart is heavy for you. I want to extend my deepest sympathy to all of you on the loss of your beautiful little girl. Our son and his wife lost their infant 6 day old son in June who was born at 27 weeks due to Fetal Growth Syndrome. I empathize with all of you on the grief a loss of an infant brings. They found support through Hope After Loss, a wonderful organization that helps families cope with infant loss, should you feel it may be helpful. You will remain in my thoughts and prayers.
