“ I worked with Frank at the old Village Press printshop in New Hampshire back in the mid 1970s. He was a great and supportive friend to this then-immature and needy brat. I will always be grateful to have known him, and am saddened to learn, 3.5 years after the fact, that he has passed. I'll see you later, Frank! Thanks for the kindness.##imported-begin##Martha Hanna##imported-end##

“ I always remember Frank as a great and fun guy. He always had time for us younger cousins. He told us the best jokes and stories. His spirit of adventure captivated my imagination. He would take us for rides in his TR-3 with the top down. I would read every page of his cast off Road and Track magazines. He and Dad would sit on the front porch and drink beer in the summer evenings. My brothers and I would sit listening to his tales of adventure. We believed every word. It was a pleasant surprise to see and visit with Frank at my parents reception in 1999. I had not seen him since the middle sixties. It was a special treat to spend time with him. My brother Tony and I related that it was his fault that we were motorheads. He just laughed hard and said, Thanks.
Please accept my condolences for your loss. I always have a smile when I remember Frank. He enjoyed life.
