“ To our dear friend Donnie and his family, we share warm and tender memories of Gloria. We met Gloria several years ago. On the several occasions we were in her company she greeted us as though we were friends of many many years. She was interested in our lives and very engaged in our shared conversations. We were always very sad to hear of her illness and suffering. A very special hug for Donnie accompanied by our sorrow for the loss of a very strong and special woman. Heartfelt condolences to all of Gloria's family and friends.
